UNITED STATES PATENT OFFICE.

FRANCIS M. LIVINGSTON, OF NEWARK, N. J., ASSIGNOR TO THE RUBBER AND CELLULOID HARNESS TRIMMING COMPANY, OF SAME PLACE.

DESIGN FOR A BRIDLE-FRONT.

SPECIFICATION forming part of Design No. 17,095, dated February 8, 1887.

Application filed October 12, 1886. Serial No. 216,077. Term of patent 3½ years.

To all whom it may concern:

Be it known that I, FRANCIS M. LIVINGSTON, a citizen of the United States, and a resident of Newark, in the county of Essex and State of New Jersey, have invented a certain new and useful and ornamental Design for Bridle-Fronts, of which the following is a specification.

Figure 1 is a perspective view of my newly-designed bridle-front; Fig. 2, a diagram showing the configuration of the design; and Fig. 3, a sectional view of the bridle-front, showing the same and the design in cross-section.

The letter A indicates the body of the bridle-front, which is formed with rims, or is upturned at its upper and lower edges to form an ornamental border.

B indicates an ornamental figure on the front face of the body, the same having a spiral configuration, the upper bends of which are formed with an open curve and the lower bends with a semi-convolute curve, the intermediate alternate curved portions being parallel with each other, respectively, as plainly shown in Fig. 2 on the drawings.

The leading feature of my design is the spiral configuration superposed or produced upon the body of the bridle-front, whose upper bends are plain and the lower bends semi-convolute, the intermediate portions being alternately curved on parallel lines, as specified; and

What I claim is—

The design for a bridle-front, the same consisting of the body A, having rims or upturned edges at the top and bottom, and the spiral figure superimposed or produced thereon, having upper plain bends and lower semi-convolute bends, and the intermediate portions alternately curved on parallel lines, substantially as described and shown.

Signed at Newark, in the county of Essex and State of New Jersey, this 11th day of October, A. D. 1886.

FRANCIS M. LIVINGSTON.
